Company Profile

● Introduction

Founded in 1978, Z-Tide Valves Industrial Co., Ltd. was engaged in the production of various types of valves. By means of accumulated experiences for years from valve production on site, we have become the leading manufacturer of Control Valves and set up the exporting department, Elite Line Industrial Corp. in 1999. Our control valves are suitable for various industries including Water Supply / Treatment, HVAC & Plumbing, Irrigation, PCW, Pumping Station, Fire Protection, Food & Beverage, Oil & Gas, Pumping System and Steam. We keep on cultivating talents to achieve better performance and design new and proper valves to meet the industrial demands of each customer. Our engineering experts are constantly developing and offering a broad range of valve patterns and sizes in a wide variety of metals and grades including: Cast Iron, Ductile Iron, Bronze, Stainless Steel, and Titanium. With **ISO9001 & CE0035 Approvals**, specific machines and digital CNC that enable us to obtain precise quality control, we are confident of providing customers with high quality Control Valves.

- Number of employees : 50 persons
- Marketing Director : Mr. James Chen
- Production location : Taipei County, Taiwan
- Production Capacity: 100,000pcs / year
- Exporting Office: Kaohsiung, Taiwan
- Products: Float Valve, Pressure Reducing Valve, Pressure Relief Valve, Pressure Sustaining Valve, Solenoid Valve, Direct Activated Pressure Reducing Valve, Direct Activated Back Pressure Valve, Water Hammer Arrester, Pressure Reducing Valve Set, Silent Check Valve, Air Release Valve, Foot Valve and Pump Control Valve.
- Certificates : **ISO9001 & CE0035**

- **Company Organization Chart / List:**

- **Equipment List:**

Machinery	Number of machine
Traditional Lathe	3
CNC	7
Driller	7
Lapping Machine	5
Welding Machine	2
Painting Machine	1
